### **DETAILED ACTION**

1. This office action is in response to the Application 10/646,435 filed 08/21/2003.
2. Claims 1-39 are pending in the Application.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-23 drawn to a method and apparatus of designing a circuit using a programmable circuit device, classified in class 716, subclass 7.
  - II. Claims 24-39, drawn to a method of synthesizing a circuit approximation, classified in class 716, subclass 18.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the Group I as a method and apparatus of designing a circuit using a programmable circuit device does not require support of the Group II as a method of synthesizing a circuit approximation, as much as the Group II as a method of synthesizing a circuit does not require support of the Group I as a method and apparatus of designing a circuit using a programmable circuit device, so each Group I and Group II can stand alone. The

subcombination has separate utility such as a method and apparatus of designing a circuit using a programmable circuit device.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
